CIRCULAR

Dear Parents,

Greetings from TWGS!!!!

We are thrilled to share a new initiative at The Wisdom Global School that aims to further enhance our students' learning experience. Starting from this academic term, we are introducing an incentive for students who use Vedic math tricks or methods in their problem-solving approaches or verify their answers using suggested Vedic math techniques like the digital sum method.

In recognition of their effort and application of these methods, students will be awarded an additional 0.25 marks per instance where they apply Vedic math principles effectively.

We believe this initiative will not only encourage a deeper understanding of mathematical concepts but also foster creative and efficient problem-solving skills among our students.

Regards

Principal
